Wisconsin's Longest Show Cave  
Educational Program

## Quick Trilobite Cookies

### Materials Needed:

- 1 bag of oval-shaped or circular cookies without icing on them, Nutter Butter or Vanilla Wafers work well. Several types of cookies can be used, if you want to show variety.
- 1 cup of mini M&M's for eyes
- Several tubes of icing for decorating. Large tubes and small, detail tubes can both be used.
- Plastic knives for spreading icing
- Paper or plastic plates to make the cookies on
- Paper towels for clean up

### Directions

1. Place undecorated cookies on a plate or paper towel.
2. Decorate cookies using tube icing.
  - Student could divide cookie into three parts
  - Spread different colors of icing on different parts
  - Use small tube icing to make segments across the cookie, or bumps, or spines.
3. Put two candy eyes on the head using a dab of icing as "glue" to help hold the candy eyes down
4. Eat and enjoy!
